Subject: Bachman Fire (OKC) - Potential use of collected fire water for Frac operation

Jhana has been approached by the PRP about utilizing the fire fighting water (approximately 3 million gallon) that was collected as a result of the fire last week. She has shared analytical data with RCRA and the Water Division. Neither had an issue with using it for that purpose. I have requested 10 minutes w/Pam to ensure that she has no issue either this afternoon and whether it would have to be okayed by HQ. Also, of note Jhana has been working closely with the state and locals.
